2022 NBR390A

nepros History of evolution

"nepros" was born to be the world's finest tools in 1995 with 5 years development period. "nepros" deepen itself with concept "more durable, useful, and beautiful" for your professional satisfaction.

"nepros" stands for "New Professional Satisfaction."

"nepros" deepen itself

New 3/8"sq. ratchet handle "NBR390A" sought the usability touches your heart deeply

2012 Previous model / NBR390

Adopt 90 teeth gear with feeding angle 4° for 3/8" compact head ratchet handles firstly in the world.

2003 Early "nepros" latter model / NBR3UN

Design reviewed for weight balance optimization. Finger groove on the handle moves to the grip end.

1995 Early "nepros" / NBR3UN

"Mirror nepros" was born with concept "more durable, useful, and beautiful"

1984 "Mirror Tool"

High polished "Mirror Tool" was born with high quality steel and newest production technology.

1982 "Deluxe Tool"

Limited edition ratchet handle only for 3,000 tool sets of "Deluxe Tool set". All tools polished by hands.

Product introduction

3/8"sq. RATCHET HANDLE

NBR390A

More details
*Japanese version only

Deepening 1 Designs

Raise accessibility to narrow space

Width of ratchet head becomes 4mm smaller. Raise accessibility, usability and work efficiency.

Shaped up ratchet head size.

Streamline shape for comfortable hand fitting.

Streamline shape from ratchet head to handle gives comfortable hand fitting and usability to reduce work load of professionals.

Comfortable hand fit and lightness reduce work load

3/8"sq. RATCHET HANDLE

No.	Feed angle	B	φ	T	L	Weight (g)	MSRP
NBR390A	4°	26	20	14	180	245	¥ 12,600

- Raised usability by optimized head-compacting, lightning, and weight balancing.
- 8 steps claw achieves high strength and durability.
- Repair kit (NBR390A-K) is available.

•Switching lever must be set completely to avoid breakage

Detailed product introduction

"nepros" is the world's finest tools stimulating professional senses.
"nepros" never stops searching for being the best.
This is the introduction of "world's finest aesthetic and functional."

Deepening 2 Usability

Previous model 275g

NBR390A 245g

10% lighter

Changer is conjunct with the lever.

Compact and light with 90 gears

To be compact and for the strength, changer is conjunct with the lever. The gear weight becomes 40% lighter than previous model for design review.

Inner stress dispersed by round-machining.

8 steps claw achieve the strength

Change from 7 steps to 8 steps claw dispersing forces to be compact and raise the strength.

8 steps claw raise the strength.

Best weight balance with hollowed handle

Additional hollowing on the handle designed by our unique technology. Achieved both best weight balance and lightness.

Additional hollowing
