

STABILIZER BUSHING PULLER

Detaching stabilizer

Using on vehicles

No need to remove the stabilizer. Easy to attach and detach!

Movie
*Japanese version only

Pushing and press fitting of bushing can be performed immediately without carrying heavy stabilizers to the hydraulic press machine. Used for stabilizer bushings on 4t to 10t Isuzu and Hino vehicles.

A single person can work safely, otherwise required two people with danger situation.

For Isuzu and Hino vehicles (medium to heavy-duty vehicles)!

Stabilizer bushings can be attached and detached simply by put attachments. There is no need to carry the heavy stabilizer to the hydraulic press machine, making it easy for anyone to perform the work.

*When replacing the old bushings of Isuzu vehicles, a part of the "Attachment Set for Hino Vehicles" is required.

Compress and press-fit bushing (slit-type)!

By using a dedicated bush press, it is possible to firmly compress and press-fit the bushing.

Solution for your issues of replacing stabilizer bushings!

Issue

- Difficult to carry heavy stabilizer to the hydraulic press machine.
- Unstable, so it takes a lot of time to center the bushings when removing/installing.
- Dangerous and requiring two people to work together.

Solution

- Work on or near the vehicle without carrying it to the hydraulic press machine.
- No need to center the bushing when attaching and detaching.
- Bush can be easily removed and attached by one person.

Two types of special attachments for Isuzu and Hino

Attachment for Isuzu.

Compatible with current and old bushings!

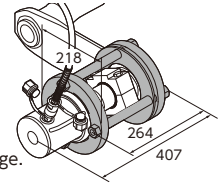

ATTACHMENT SET FOR ISUZU APPLICATIONS OF STABILIZER BUSHING PULLER

No.	Weight (kg)	□	MSRP
ATSP120	33	1	¥630,000

Set Contents

No.	Part No.	No.	Part No.
ASP120-1	Attachment base	ASP120-6	Adapter
ASP120-2	Push out attachment (for current type bushings)	ASP120-7	Ring nut
ASP120-3	Push out attachment (for old type bushings)	ASP120-8	Press base
ASP120-4	Press fit attachment	ASP120-9	Trolley bag
ASP120-5	Bush press		

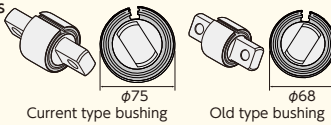

- Specialized in push-out and press-fit of stabilizer bushings for Isuzu Motors.
- No hydraulic press machine is required, and the stabilizer can be worked either mounted on the vehicle or lying under the vehicle after detaching.
- No need to center the bushing when attaching and detaching.
- Hydraulic unit set (No.ATSP110) is required for use.
- Set with a dedicated trolley bag for convenient transportation and storage.
- *Dedicated trolley bag is not sold separately.
- *It may be scratched because the product is tested for operation before shipping.

Notes on bushings for Isuzu vehicles

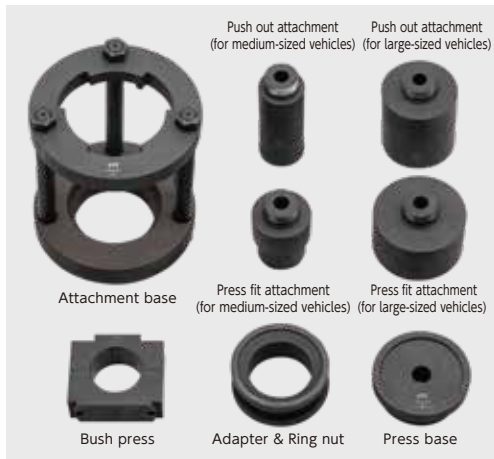

The stabilizer of Isuzu vehicles has current type* bushings and old type bushings that were used in the past. When replacing old type bushings, a part of the "Attachment Set for Hino Vehicles" is required.

*As of March 2023

Attachment for Hino.

Set of attachments specially designed for medium and large vehicles!

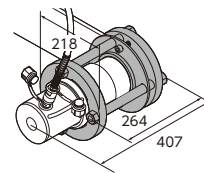

ATTACHMENT SET FOR HINO APPLICATIONS OF STABILIZER BUSHING PULLER

No.	Weight (kg)	□	MSRP
ATSP130	46	1	¥681,000

Set Contents

No.	Part No.	No.	Part No.
ASP130-1	Attachment base	ASP130-6	Push out attachment (for medium-sized vehicles)
ASP130-2	Push out attachment (for large-sized vehicles)	ASP130-7	Adapter
ASP130-3	Press fit attachment (for large-sized vehicles)	ASP130-8	Press base
ASP130-4	Bush press	ASP130-9	Ring nut
ASP130-5	Press fit attachment (for medium-sized vehicles)	ASP130-10	Trolley bag

- Specialized in push-out and press-fit of medium to large (4- to 10-ton) stabilizer bushings for Hino Motors.
- No hydraulic press machine is required, and the stabilizer can be worked either mounted on the vehicle or lying under the vehicle after detaching.
- No need to center the bushing when attaching and detaching.
- Hydraulic unit set (No.ATSP110) is required for use.
- Set with a dedicated trolley bag for convenient transportation and storage.
- *Dedicated trolley bag is not sold separately.
- *It may be scratched because the product is tested for operation before shipping.

Dedicated trolley bag (W385×D315×H635)

Hydraulic unit set exclusively for attachments. Hydraulic capacity 30t.

HYDRANLIC UNIT SET OF STABILIZER BUSHING PULLER

No.	Hydraulic capacity	Appropriate air pressure for use	Driving Source	Safety device	Weight (kg)	□	MSRP
ATSP110	30t	0.6~0.9MPa	Compressed air	With relief valve	31	1	¥488,000

Set Contents

No.	Part No.	No.	Part No.
ASP110-1	Air pump	ASP110-4	Air regulator
ASP110-2	Hydraulic cylinder body	ASP110-5	Bush press attachment
ASP110-3	Hydraulic hose	ASP110-6	Trolley bag

- Hydraulic unit set exclusively for stabilizer attachment set for Isuzu and Hino (No.ATSP120/ATSP130).
- Hydraulic cylinder capacity is 30t.
- Set with a dedicated trolley bag for convenient transportation and storage.
