Standard model with 3 shelves tray for improving storage capacity.

SKR603C

Basic model with all the necessary functions for easy-to-use.

SKR502C

Low model with 770mm height, ideal for using next to work table.

SKR402C

Roller cabinet with deep drawers that combines safety design and comprehensive functionality.

EKW-1105SBK

— Features of EKW-1105SBK —

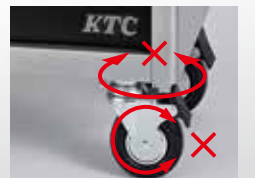

Wide body
Wide body allows even long items to be stored sideways. Size is highly practical and prioritizes ease of use at the maintenance site.

Round shape
In addition to the frame, even the fine details of the drawers are bent to reduce the risk of cuts and other injuries.

Inner frame
Flat side surfaces, a characteristic of EKW, are achieved by ensuring rigidity with an inner frame.

2 way lock & large wheels
Swivel casters feature a two-way locking mechanism that locks the rotation of the base at the same time as locking the rotation of the wheel.

Large handle
Considering workability and safety, adopted a large fixed handle that is easy to hold and prevents your hand from getting caught.

Ball bearing rail
Drawers use ball bearing slide rails for smooth opening and closing.

The slide shutter can be opened and closed easily with one hand, allowing you to smoothly take tools.

3 adjustable drawers

Adjustable shelf

Fixed shelf

With its quick-access drawers and fixed trays, you can store and organize everything from large, heavy items to small items.

The coloring is designed to match the urban maintenance environment, allowing it to be unified with the wall storage.

Height 770mm

Low height makes it easy to take out items while working. Placing a case, etc. on the top plate will align the height with the work desk, improving work efficiency.

Depth 105mm

The first drawer is deep. It is ideal for storing tall or large tools, such as frequently used deep sockets.

TOOL STATION (3 SHELVES, 3 DRAWERS, SHUTTER TYPE)

No.	Weight (kg)	□
SKR703C	39	1
Body size	W670×D420×H900

•The first drawer is deep, allowing frequently used parts and sockets to be stored upright.
•An all-drawer locking system is used, which means that when all drawers are closed and locked, all drawers are locked at the same time.

— Features of SKR series —

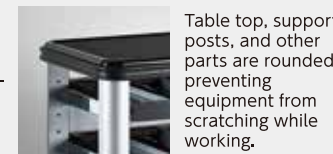

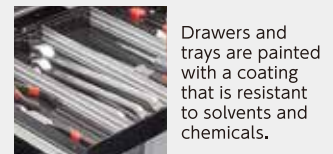

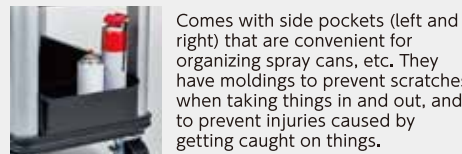

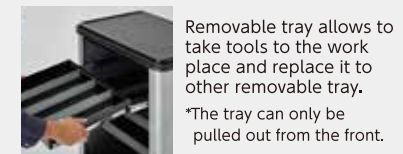

Table top, support posts, and other parts are rounded, preventing equipment from scratching while working.

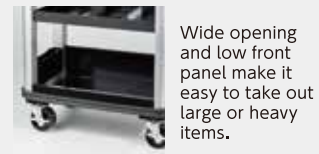

Drawers and trays are painted with a coating that is resistant to solvents and chemicals.

Comes with side pockets (left and right) that are convenient for organizing spray cans, etc. They have moldings to prevent scratches when taking things in and out, and to prevent injuries caused by getting caught on things.

Removable tray allows to take tools to the work place and replace it to other removable tray.
*The tray can only be pulled out from the front.

Wide opening and low front panel make it easy to take out large or heavy items.

4 swivel casters move smoothly to all directions and have stoppers for safe work.
*SKR703C has 2 fixed casters and 2 swivel casters.

There are holes on the inside of the pillars for installing options.
