

RECHARGEABLE LED LIGHT

FLEXIBLE LIGHT
(HAND LIGHT TYPE)
No. AL816HA

FLEXIBLE LIGHT
(PEN LIGHT TYPE)
No. AL816PA

HAND LIGHT
No. AL815HA

Clip it. Stick it. Angle it. A versatile handheld LED light for any situation.

Three powerful handheld LED lights—ranging from 350 to 1,200 lumens—now available. Featuring rotating heads, bright beams, and ultimate flexibility. Perfect for everything from maintenance to inspection tasks.

Stepless flexible light that can be adjusted to target areas

The magnet on the bottom and the flexible head provide ample lighting for your work area.

You can switch to UV light by pressing and holding the switch when it is lit.

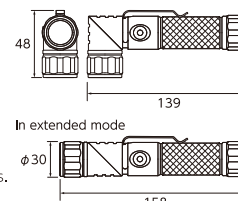

RECHARGEABLE LED FLEXIBLE LIGHT (HAND LIGHT TYPE)

No.	Light source (lm)	Continuous use time (h)	Weight (g)	✂
AL816HA	1,000 (strong)	3.0 (Strong)	220	1

- Flexible head that can be rotated 90 degrees continuously.
- Comes with a pen clip so it can be attached to a breast pocket or binder.
- You can switch between normal light and UV light.
- The bottom has a magnet.
- Dimming level: 4 levels (strong, medium, weak, UV)
- Charging port: USB Type-C, charging time is about 3 hours
- Dustproof and waterproof: IP65
- Accessories: USB charging cable (charger not included)

- Do not shine the LED light directly into your eyes.
- Do not use with wet hands.
- Do not use underwater or in the rain.
- Do not place near electronic devices or other items or places that are affected by magnetism.
- Cannot be charged with a quick charger. (Recommended charger conditions: 5V 1A)
- Charge using the included charging cable.

3 ways to use

1 Wear it in your pocket

The clip can be turned around and clipped to your breast pocket.

2 Hold it in your hand

The non-slip knurled finish allows you to hold it in your hand and illuminate the area you want.

3 Fix it with a magnet

It is fixed with a bottom magnet and the direction of the head can be adjusted to illuminate freely.

Hands-free operation with a pen clip and bottom magnet—perfect for any task.

The magnet on the bottom allows it to be firmly attached to metal surfaces, allowing you to work with both hands. The flexible head allows you to precisely adjust the direction of irradiation.

The head can be rotated continuously up to 90 degrees. 2 levels of dimming are possible.
