

AIR BLOW GUN SET

AIR BLOW GUN BOTTLE

Streamline Cleaning During Maintenance! A Versatile Air Blow Gun Set & Dedicated Bottles —Keep Every Task Clean with Ease.

Air blow gun set comes with six specialized nozzles to efficiently remove dust and oil. Having a dedicated bottle option featuring a foam jet nozzle, it's perfect for washing and deep cleaning tasks. Easily reaches into tight gaps and complex shapes for thorough, hassle-free maintenance.

Versatile 6 nozzles for every detail

Blowing out dust, water, and oil to reaching deep, recessed areas.

Just plug in —easy attachment

Simply insert the nozzle to attach without any tools. To remove, just twist the quick-release knob.

Option

Dedicated bottle for washing and cleaning tasks

Optional bottle attaches to the YTKAG8 main unit and is designed for use with water or cleaning solutions. It effectively rinses away dust, oil, and other residues generated during operation.

AIR BLOW GUN SET

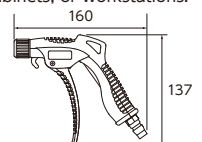

No.	Recommended pressure	Air inlet	Air inner diameter	Material (body)	Environmental temperature	Weight (g)	Box
YTKAG8	0.62MPa	R1/4" (PT1/4")	8mm or larger	Reinforced plastic	0~40℃	355	30

Set contents	
Tornado nozzle	Effectively clears narrow spaces with air vibration
Flexible straight nozzle	Ideal for deep or recessed areas with soft tip
Flexible side blow nozzle	Ideal for cleaning recessed side areas with soft tip and dual side nozzles
Shut-proof nozzle	Minimizes water and oil splashing
Turbo nozzle	Delivers approx 3 times more airflow for powerful cleaning
Fan nozzle	Ideal for sweeping away water and dust over wide areas
Holder	

- Air blow gun set with 6 specialized nozzles for dust, water, and oil removal.
- Each nozzle is designed to match specific work areas and applications, ensuring effective removal of contaminants like dust and grease.
- Quick one-touch nozzle attachment and removal.
- Supplied with a dedicated magnetic holder for secure storage of the main unit and nozzles. Suitable for mounting on steel walls, tool cabinets, or workstations. (Can be stored with the dedicated bottle (YKAG-T) attached to the air blow gun)
- Maximum operating pressure: 1.5MPa

- Dust may be scattered.
- Wear protective goggles and masks when working.

6 Specialized Nozzles Tailored to Different Tasks and Applications

Sweeping away dust, water, and oil to reaching deep or recessed spots, the nozzles can be easily swapped to suit each specific task.

The swirling air vibration penetrates deep into fabric surfaces, effectively dislodging dust and debris trapped within.

Easily sweeps out dust and particles from holes, grooves, and recessed areas with focused precision.

Enables high-pressure discharge of dust and contaminants from recessed or enclosed areas, ensuring complete removal.

The outward-directed airflow helps minimize the dispersion of fluids during cleaning or maintenance.

By drawing in additional air from the outside, this nozzle generates a powerful blast—up to 3 times airflow of standard models for enhanced cleaning efficiency.

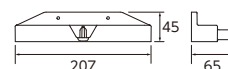

Draws in air from the nozzle tip for wide-area coverage.

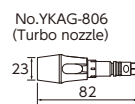

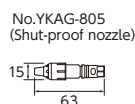

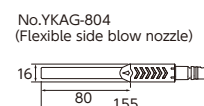

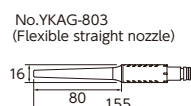

Magnetic Holder

Secure storage of the main unit and nozzles, with mounting on steel walls, tool cabinets, or workstations.

Spare parts

No.	Description	Weight (g)	☐
YKAG-802	Tornado nozzle	40	1
YKAG-803	Flexible straight nozzle	17	1
YKAG-804	Flexible side blow nozzle	16	1
YKAG-805	Shut-proof nozzle	8	1
YKAG-806	Turbo nozzle	14	1
YKAG-807	Fan nozzle	10	1
YKAG-802-P	Tornado nozzle pipe	8	1

Dedicated Bottle Designed for Washing and Cleaning Applications

When foam jet nozzle is attached

When spraying liquid

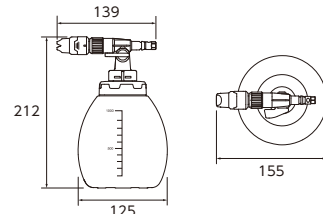

Switch between foam, liquid, and air by removing the foam jet nozzle.

AIR BLOW GUN BOTTLE

No.	Capacity (mL)	Weight (g)	☐
YKAG-T	1,000	315	24

- Dedicated bottle for use with YTKAG8 air blow gun set.
- Ideal for rinsing away dust, oil, and water during cleaning tasks.
- Removable foam jet nozzle enables switching between foam, Liquid, and Air modes.
