

CORDLESS BLOW GUN SET

Powerful Airflow Up to 51 m/s* in a Lightweight, Compact Design. A Cordless Blow Gun Engineered for Ease of Use.

* In Turbo Mode

A versatile cordless blow gun for a wide range of applications, from removing water droplets after car washing to cleaning and maintenance tasks. With 4 adjustable air speed modes and Turbo Mode, it enables efficient operation and significantly reduces the time required for maintenance and cleaning work.

No. JTAE551

Faster Work with 4-Speed Control + Turbo Mode

Max
Air Speed:
approx.
51 m/s*
*In Turbo Mode

Switch easily between 4 air speed levels and Turbo Mode with the speed control button. From wide surfaces to tight gaps, it quickly removes water and debris, helping you complete cleaning tasks in less time.

* Turbo Mode is activated by pressing the speed button twice consecutively.

Lightweight & Easy to Handle

Weight:
Approx.
1.3 kg

Lightweight design at approx. 1.3 kg (including battery) ensures excellent handling and outstanding work efficiency.

Convenient Operation at Your Fingertips

All three buttons are positioned on the front of the handle, allowing smooth air speed adjustment during operation without interruption.

Save Time With 4 Air Speed Levels and Turbo Mode. Stay Focused With Easy Fingertip Control.

High-Volume Air Intake

High-volume air intake enables powerful, high-speed airflow.

Detachable amplifier nozzle

High-Visibility Display Panel

LED light for low-light conditions

Air Speed Modes	Approx. Max Air Speed (m/s)	Approx. Runtime (min)
1	30	28
2	33	21
3	36	17
4	43	12

Turbo Mode Approx. 51 m/s*

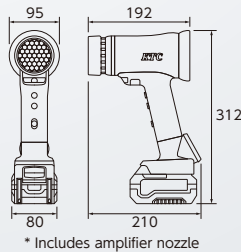

- * Runtime values indicate continuous use at full charge
- * Turbo Mode automatically stops after approx. 12 seconds

Backlit display ensures excellent visibility even in low-light conditions. Easily check air speed and battery level at a glance.

Clear Indicator

Battery level can be easily checked via the front button.

Front-mounted control buttons for easy operation

Compact & Lightweight Design

Lightweight and easy to maneuver, reducing fatigue during operation.
