

RECHARGEABLE LED FOLDING LIGHT

Experience True-to-Life Color With a Foldable LED Work Light Featuring 5 Color Temperature Levels

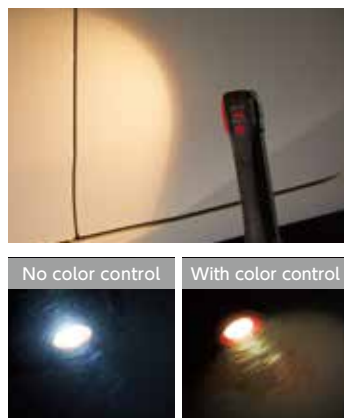

An LED work light with adjustable color temperature, ideal for inspecting paint finishes, detecting post-polishing scratches, and checking wiring. By selecting the appropriate color temperature for each task, it ensures accurate color visibility even in low-light environments, helping prevent misidentification. From maintenance and inspection to bodywork and painting, it performs reliably across a wide range of applications.

Fully Adjustable Light Head for Quick, Targeted Illumination

Slim light offers 180° vertical tilt and 270° axial rotation for flexible positioning.

Inspect Scratches and Finish with 5 Color Temperature Levels

Adjusting the color temperature makes fine scratches, dents, and uneven paint finishes easier to see.

RECHARGEABLE LED FOLDING LIGHT

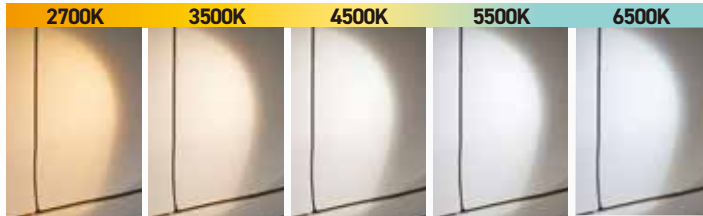

No.	Maximum Brightness(lm)	Continuous use time(h)	Weight(g)	⊞
AL815T	800 <Strong slim light>	2.5 <Strong slim light>	450	1

- High color accuracy LED with 5 color temperature levels (2700K-6500K)
- Ideal for paint inspection and precise detection of scratches and color variations
- Features a main light for targeted illumination and a slim light for wide-area coverage.
- Slim light rotates 180° vertically and 270° around its axis
- Magnetic base for secure attachment to metal surfaces.
- Lighting modes: Main light / Slim light
- Dimming levels: 6 levels (Main light: High / Medium / Low, Slim light: High / Medium / Low)
- Color temperature levels: 5 levels (2700K, 3500K, 4500K, 5500K, 6500K)
- Charging port: USB Type-C (approx. 4.0 hours charging time)
- Dust & water resistance: IP65
- Accessories: USB charging cable
- * Charger not included.

Adjust Angle and Color. See Clearly. Work Precisely.

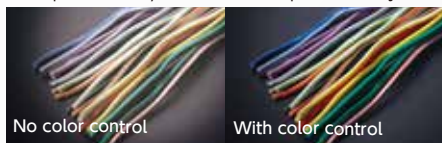

Fine-tune the light angle to match your working position, illuminating your field of view clearly and supporting accurate, efficient work.

5 Color Temperature Levels

Easily adjust to suit your task—whether inspecting scratches, checking paint finishes, or working with wiring.

Example: Visibility with Color Temperature Adjustment

When the light is too harsh and washes out colors, adjusting the color temperature helps reveal subtle differences more clearly.

Quickly illuminate exactly where you need with dual lights

Switch between the main light and slim light to suit the task. Each offers 3 brightness levels for bright illumination in dark or hard-to-reach areas.

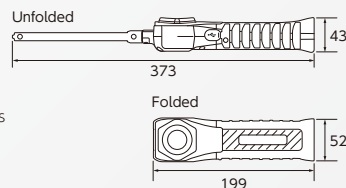

Easy-to-Read Indicators

Check battery level and color temperature at a glance.

- Do not look directly into the LED light.
- Do not use with wet hands.
- Do not use in water or in the rain.
- Do not touch the light head during or immediately after use.
- Keep away from devices or environments sensitive to magnetic fields.
- Do not use a fast charger. (Recommended: 5V / 2A)
- Use the included charging cable.
- Store with the power turned off.

Magnetic base allows secure attachment to metal surfaces for hands-free operation.

Brighten Your Workspace with Confidence KTC Rechargeable LED Light Series

From maintenance and inspection in dark environments to work in tight or hard-to-reach areas, reliable brightness supports safer and more efficient operations.
